Electricity Brings the Conveniences of the City To Rural Communities

No longer is it necessary for you to move to the city to escape the hitherto burdensome features of farm life. With electricity to do your bidding you can emphatically refute the statement that a "farmer's work is never done."

In home, laundry, garage, barn, pumping house or dairy—wherever human or mechanical energy is required—electricity may be called upon to shorten your working days and lighten the duties of farm life.

Well lighted homes not only radiate rest and repose after a day of plowing, harrowing or hay making but also detract from questionable amusements that tend to draw your children away from the family fireside.

Our stock includes

ELECTRIC IRONS, VACUUM SWEEPERS, MOTORS, WASHING MACHINES, HEATERS, WAFFLE IRONS, POPCORN POPPERS, CURLING IRONS, PERCOLATORS, STOVES, ELECTRICAL REFRIGERATORS, FIXTURES.

Let Us Serve You Electrically
